DURUM WHEAT

Low quality Durums have reached the end of the line. It is dangerous for farmers to continue to produce them. C. L. Sibbald, director of the Catell Durum Institute makes this statement in a recent release from Winnipeg. Following the war, increased demand for Durum wheat caused Canada's production, which had dropped during the hostilities, to jump. The demand was such that even low quality varieties met ready sale. Heavy rust hit Manitoba and eastern Saskatchewan for several years and seed for good varieties was hard to obtain. Golden Ball and Pellissier came into more general use, particularly in Saskatchewan and Alberta.

According to both Mr. Sibbald and the Canadian Wheat Board, the days of acute shortage of Durum are over. Canada produced 17½ million bushels last year and U.S. figures were up. Many farmers have gone into the Durum business and the demand is being satisfied, now, to the extent that buyers are becoming much more selective for quality. The trend now throughout the Durum growing district is to obtain Stewart or Mindum varieties and to dispose of Golden Ball and Pellissier. It would appear that sufficient of the former varieties will be grown to make the marketing of the latter difficult another year. Even this year, Mr. MacIvor stated low grade Durum was very draggy.

District Farmer, Fred Nolte Dies

The many friends of the Fred Nolte family were shocked and grieved to learn of the sudden death of Mr. Nolte at the local hospital Friday afternoon, February 24. Although he had not enjoyed good health for some time, his condition was not considered critical and his passing away was most unexpected.

Born 59 years ago at Obertudorf, Westphalia, Germany, Fred Nolte came to Canada in 1924, to Fort Saskatchewan and Edmonton. Three years later he came to the Vulcan district, where he continued of farm, west of town, until his death. In 1935 he was married to Miss Anna Nakonechna.

He leaves to mourn him his wife Anna; two daughters, Madeline and Kathryn; and one son, all at home; a brother Joe at Morrillville and one brother and two sisters in Germany; two nephews who lived for a time at the Nolte home, but now reside at Edmonton.

Mr. Nolte belonged to the Holy Name Society of the Roman Catholic Church, and was a member of St. Andrew's church here.

Damage amounting to about \$6,000 resulted from a fire at the Bill Holoboff farm on Monday, Feb. 20.

Bill, assisted by Frank McNiven, was doing some welding inside a new machine shed when a chip flew up and broke the sediment bowl on McNiven's tractor, igniting the gas. Fire extinguishers were available but did not function properly and the frame implement shed soon caught on fire.

The two men were able to get Holoboff's tractor out, but McNiven's tractor and other machinery in the shed were destroyed. The new 28x44 implement shed, of frame construction with sheet metal roof, was a complete loss. No insurance was carried.

SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

A series of meetings were concluded on Thursday last, sponsored by the Alberta Dept. of Agriculture and the local Agricultural Service Board, under the direction of H. Michael, District Agriculturist, and the writer. These meetings were fairly well attended and very much appreciated by those who were present, they were held at Carmangay, Champion, Brant and Milo. Films were shown on the subject of weeds, contouring of land and tree planting as well as several slides of local interest.

Mr. Michael stressed the point that many farmers may not know of all the many services that the Department of Agriculture are rendering; for instance some farmers may not know that free trees can be had for farm planting by simply making application. Others may not know that contouring service may be had. Hundreds of booklets and pamphlets may be had covering practically every phase of agriculture. These can always be procured from the District Agriculturist's office by asking or a more limited supply is kept on hand at your Service Board office in Vulcan. These can be had at any time by calling at this office.

In regard to trees there are still quite a few varieties available for planting this spring. Any one who may be interested kindly contact this office without delay and these trees can be had for farm planting by filling out an application form. The new list of 1956 grass seeds is at hand, some seeds are considerably lower priced than in 1955 and some others are slightly higher. Some additional seeds such as Reed Canary and Orchard Grass will be available this year.

IN MEMORIAM

BROWN—In loving memory of my dear wife and our mother, Helen Tennant Brown, who passed away March 2, 1948.

"Always so true, unselfish and kind,
Few in this world her equal you'll find.

A beautiful life that came to an end;
She died as she lived, everyone's friend.

Death is a heartache nothing can heal,
Memories are treasures no one can steal.

Some may forget you, now that you're gone,
We will remember, no matter how long."

—Ever remembered and sadly missed by her husband Edward and family. 29-1c

Better days are here for Phil Fraser!

In all his years of railroading, Engineer Phillip Fraser has seen some big changes.

"Rolling along in this smooth diesel locomotive," says Mr. Fraser, "is a real thrill — a far cry from driving the old steam jobs. Its extra power gives it quicker pick-up and more speed on the grades. Besides, it can run from coast to coast without a change. That's what I call progress!"

Phil has seen progress in the life insurance business too. As a family man, he knows that this business offers better service today than ever before.

Take life underwriters, for instance. Modern training makes these men better qualified to guide people through the complex problems of planning for future security.

Today, too, life insurance is more flexible. There's a wider range of plans — allowing people to meet their own individual needs.

Moreover, people with certain physical handicaps, can now enjoy the protection of life insurance.

In these and other ways, the life insurance companies in Canada have progressed with the times to meet the changing needs of people in all walks of life!

District News**MAJORVILLE**

If Candlemas day be bright and clear, there will be two winters in that year. If Candlemas day be dull and drear, the half of the winter is gone and mair. That last word is 'more' in your language, but it would not rhyme so well, and in case you don't know Candlemas day is Ground-hog day over here. Much as we deride the old sayings and folklore they do have an uncanny way of being right most of the time and this year Feb. 2nd certainly was bright and clear and it looks that we will have two winters this year. In fact, we have had two winters already. Cattle men are wondering if the feed stock will last 'till April but let's hope there will be a break before that despite what the ground-hog forecasts.

One calf on the farm of John Bartsch is going to face a dilemma when the fly season rolls around. It was born without the usual built in fly swatter, and that is a tale of a tail.

One young fellow complained recently that his wedding anniversary, his wife's birthday and Valentine's day all came in the same week, and he found it hard to get gifts for everything. Well, suggested his friend, why don't you just buy one good present and let it go at that. That's a good idea replied the perplexed fellow, but I never seem to have that much money at one time anymore. So that's a tip for you other guys who contemplate joining the young married set. Don't have too many anniversaries coming up at the same time.

Mr. and Mrs. A. Jacobs with Bruce and Archie, presently of Kaslo, BC, are guests at the home of the latter's brother-in-law and sister, Mr. and Mrs. Bartsch.

Mrs. Leonard Voys arrived home at the beginning of the week from Arizona where she spent the last five weeks. Leonard is reported to be pretty well but stayed in Arizona for a while longer.

David Smith entered Vulcan hospital on Wednesday to undergo a tonsillectomy. We send "get well soon" wishes.

Friends will be sorry to learn that Vic Bertrand is at present a patient in a Long Beach, California hospital. Vic suffered a heart attack. We send him best wishes for a complete and speedy recovery.

Mr. and Mrs. V. Wellman were visitors to Calgary at the first of the week.

A card from Mr. and Mrs. Ray Wellman tells us they are having a good time way down in the middle of Mexico.

Birthdays and anniversaries among their crowd was excuse enough for a turkey supper at the home of Mr. and Mrs. Larry Umschied last Sunday when those present were Mr. and Mrs. Joe Thomson and Jimmie; Mr. and Mrs. Lloyd Armstrong; Mr. and Mrs. John Umschied, Eric and Mark; Mr. and Mrs. Floyd Armstrong, Clinton and Shannon; Mr. and Mrs.

Hap Heather and Terry; and Mr. and Mrs. Bert Clemmons and Ricky.

On March 8 the Good Deeds WI will celebrate their 33rd anniversary. Former members are cordially invited to attend this meeting being held at the home of Mrs. Ross Lyman.

Mr. A. W. Maisey was honored on Monday at a no-hostess tea at the home of Mrs. Russel Robble on the occasion of her birthday. The Cambridge drilling company

has begun to drill for oil ¼ mile northwest of Kirkcaldy on the Bob Cutler farm, formerly owned by Sam Colwell. To date the derrick has been set up but the well will be drilled from 6000-6500 feet deep.

Alberta's Going Places...

Today Alberta Has More Than 2,000 Miles of Paved Highways...

Good roads are vitally important to Alberta's progress and prosperity. They are the arteries of modern commerce and communication... and open up vast opportunities for expansion and development of natural resources. Building and improving Alberta's roads and highways is so important that last year almost 28 per cent of the total provincial budget was allocated for this purpose.

7 HIGHWAYS BRANCHES

The work of the Alberta Department of Highways is conducted by 7 branches:

1. The Location Branch selects the location of new highways and roads.
2. The Surveys Branch surveys the completed location of highways and all roads in Improvement Districts, and administers all government-owned land in the province.
3. The Construction Branch stakes out highway locations, purchases gravel and does all work such as cross-sectioning and levelling.
4. The Bridge Branch builds all highway bridges and is presently conducting an expanded program to provide for modern traffic requirements. Bridge design is carried out by the branch, but construction is distributed among private contractors.
5. The Accounting Branch assembles costs of each type of highway, bridge and ferry.
6. The Maintenance Branch maintains all main highways, awards grants to municipal districts and improvement districts for road work and supervises all work done under these grants.
7. The Motor Vehicles Branch, which includes the Highway Traffic Board, issues all vehicle licenses, conducts drivers' tests and passenger car safety tests and controls truck and bus traffic.

HOW HIGHWAYS ARE BUILT IN ALBERTA

All main highways in Alberta are built on a four year schedule. The first year the sub-grade is applied, ditches, shoulders and grade are fine graded and first course surface gravel is applied.

The second year a stabilized base course of screened gravel is spread to a depth of five or more inches. Two more layers of crushed gravel come next, the second consisting of asphalt bound crushed rock, bringing the total thickness of the base course to nine inches or more.

The third year a coat of asphalt is first applied and then a hot plant mix of asphalt and sand, about four inches thick is rolled into place.

The final year of the schedule the surface seal coat of asphalt and rock chips is applied, lanes are marked and guide posts and markers erected.

Expert engineering skill and knowledge goes into the construction and maintenance of Alberta's vast highway system. Safety and endurance are built into every mile of road, and the search for better methods never ends.

Three members of the hall board whose terms had expired were re-elected and the hall board members are as follows: Mrs. Myrtle Williams, Leigh Williams, Lorne King, Stewart Hayes, Harold Williams, Reg Campbell, Frank Burger, Bob Sealey, John Jacobson.

The work shop belonging to Bill Holoboff was destroyed by fire on Monday about noon. It is believed that a spark from a welder which was being used on a bulldozer was the cause. Only a farm tractor and about 400 bushels of oats were saved. About \$1000 worth of tools, attachments, garden tractor and the caterpillar were destroyed in the blaze which consumed everything in an hour. Neighbors responded quickly to the call for help but nothing could be done.

Weekend visitors at the home of Mr. and Mrs. Sig Hunt were his brother and sister-in-law.

Between games the Curling Club treated them to hotdogs and pop. Winners won chocolates and losers received boxes of candy.

Their prizes were a pair of Hudson Bay four-point blankets, Cummings drills, kits with saws and silver entrée dishes as well as the Marquis Coffee Shop and James Aird Memorial Trophies. Stu is curling in the Calgary bonspiel with Ron Baker.
